There's a lot of talk about the Affordable Care Act and all the health care changes that come with it. What does the new health care law really mean for you?

Ms. Kern will review the core strategies of Healthcare Reform, examine the ways in which the private sector has responded to the Affordable Care Act, explore present day issues for both patients and providers, identify questions patients or their advocates need to ask.

This presentation is worth 1 hour of CEU for nurses, social workers and nursing home administrators.
